#### DEAR GUESTS

Here we would like to provide answers to the most frequently asked questions – from A to Z. Of course, we do not always have an answer to all questions.

However: We will always do everything we can to help you, no matter what your request is. So if you don't find what you're looking for here, don't hesitate and get in touch with us. We are happy to be there for you.

Your Park-Camping Lindau Team

You can obtain this from the reception desk for a deposit (25 €).

## BEACH

Certainly, we strive for the greatest possible cleanliness. This is also true for the beach, which we clean for you daily during the swimming season.  
At the same time, harmony with nature is our top priority. We therefore ask for your understanding that wood is a natural flotsam at Lake Constance that occurs in large quantities and therefore cannot always be removed completely.

## BEACH BAR LOGE 66A

One of the most beautiful spots directly on the lake and the first address for our guests when it comes to delicious refreshments. Open Monday to Sunday from 11:00 am to 09:30 pm when the weather is good.

We provide you with two charging stations, each with two charging options. Payment is conveniently made by credit card. Please note that our charging stations are exclusively available to our guests.

### ECOCAMPING AWARD

The issue of sustainability is very important to us. That's why we had our campsite closely examined by the ECOCAMPING initiative, which promotes sustainable camping tourism in Europe – and subsequently received the desired **ECOCAMPING award!** Important criteria for this are: a thorough recording of waste, energy and water consumption, the training and participation of our staff and individual advice and planning, which forms the basis for sustainable business development in the coming years.

Our power distributors are fused with 16 amps. 90 percent of the energy we provide you with, comes from green electricity.

The billiard table is available for a deposit of 20 €.

Or you can discover the enchanting park and garden landscape of the **“Bavarian Riviera”**, the famous villa district on the shores of Lindau. You should also not miss out on the rich cultural offerings: The **art museum** at Lindau’s island railway station alone presents top-class exhibitions on classical modern artists every summer.

---

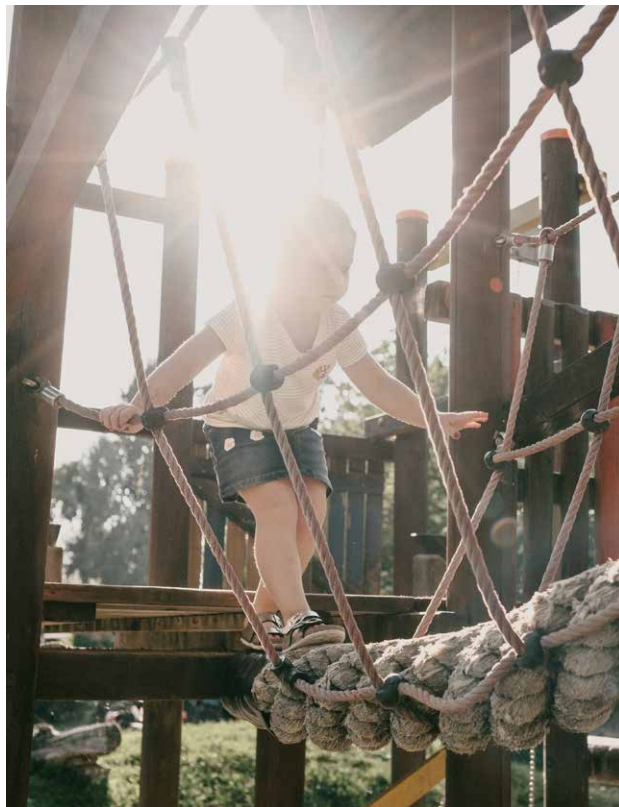

### MAGAZINE AND BOOK EXCHANGE

Have you finished reading your magazine? Why don't you just leave it at the exchange point at our reception – and take something else with you! If you are looking for more reading material, you will find it in our small library in the lounge.

---

### MINIGOLF

Two golf courses are located right nearby: In Lindau (Am Aeschacher Ufer), and in Hörbranz, Austria (Lindauer Straße 58).

---

### NATURE

We owe the unique flair at Park-Camping Lindau to the wonderful location directly on Lake Constance and the original closeness to nature.

We can all do something to help preserve it for future generations. Help and pay attention, for example, to the careful use of resources such as electricity and water and respect designated nature reserves and quiet zones for the plants and animals!

---

### NATURE TRAIL

**Does a sundial also work in rainy weather?**

**Why are there dwellings for bats on the shores of Lake Constance?**

**And where does all the driftwood actually come from?**

Experience nature while walking or hiking – and learn a lot about the plants and animals: Nature trails are popular among young and old. The playful combination of theory and practice is especially popular with young explorers and nature lovers. Our trail leads across the entire area of the campingsite and impressively shows everything that grows, thrives and blossoms here!

---

### STORM ALERT

The weather can change quickly at the lake. Even when the wind seems calm, gusts can occur within minutes. For this reason, more than 60 storm warning lights are installed near the shore of Lake Constance, so that the signals can be seen from everywhere on or near the water.

Strong winds are indicated by 40 orange flashes per second. If the lights flash faster, which is 90 times per minute, then there is even a storm risk.

For your own safety, please move to the shore immediately in the event of strong winds. We also recommend that you secure any tents or awnings at the pitch to be on the safe side.

If there is a risk of severe weather, please go to the lounge immediately! Despite intensive tree care, risks due to branch breakage on the site cannot be completely ruled out.

---

### WATER BIRDS

Numerous rare species feel at home on Lake Constance, including in our bay! However, we ask you to refrain from feeding. Finally, the excrement of the animals could worsen the local water quality as a consequence.

---

### WATER BOMBS

Even if it's fun, though, water bombs are not allowed to be thrown anywhere on the campsite!

---

### WATER SUPERVISION

On weekends, the water supervision staff are usually on the site to monitor bathing activities. The service hut is located at pitch no. 222. However, we would like to point out that bathing here, as at many other places on Lake Constance, is always at your own risk.

---
